The Windows version of the program, with its advanced features, has always been one of the top audio players and has received numerous awards from various publications and institutions. Android version of the AIMP program supports most audio formats and low system resource consumption is quite acceptable and will be your favorite songs of best quality. The user interface of this program is the same as the default version of Windows, and there is no particular complexity in using it, because not all parts are available and users will not be confused when using it. The 8-band equalizer is also designed for advanced users to allow custom changes to the output of sound. It should be noted that this player is very google players lately and has achieved an average rating of 4.5; maybe knowing that over 100,000 users have given AIMP a full 5 rating. AIMP Application Features: CUE Sheet supportEqual with 8-band equalizerAutomatic detection of data encoding tagsSupports Art AlbumFile Built-in File Manager built-in and ability to play songs from withinAbility to control playback from notification bar (on Android 3.0 and up)Ability to control playback with headphone buttonsAbility to group files by templateEd could not sort files by template or manuallySo click between files using different filtersThe ability to manage and delete songs directly from within appEdability to play, based on custom foldersBack-and-end to add all audio files SDcardAtsa a second option to play songs from other File Manager applications with lock screen (Android 4.0+)Having a home screen widget Lock With Screen Widget (Android 4.2+) Ability to play Supported Formats: \*.ape; \*.mpga; \*.mp3; \*.wav; \*.ogg; \*.umx; \*.umx; \*.mod; \*.mo3; \*.it; \*.it; \*.s3m; \*.mtm; \*.xm; \*.xm; \*.aac; \*.flac; \*.mp4; \*.m4a; \*.m4b; \*.mpc; \*.wv; \*.wv; \*.opus; \*.dsf; \*.dff; \*.dff; \*.ttaDownload AIMP Mod Lite v3.01 b974 ApkLoad AIMP Original v3.01 B979 ApkChange Log: v3.00 B-942 \* Light gray and dark gray themes have been added \* Sorting dialog has been modified - problems from incoming crash-messages are fixed- Fixed: player - sometimes engine not successfully initialized/error occurs after restart background service Today we have started public beta testing of the new version of AIMP for Windows - v4.70.Whats new?
